Certis Europe offers integrated crop protection solutions, which support their customers to grow healthy crops and has the ambition to grow in biological crop protection.

Certis Europe has an informal no-nonsense company culture and a pragmatic working attitude with a serious focus on personal development and attention for personal interests.

The Dutch branch of Certis Europe is part of a strong, fast growing and successful European organisation with the head office in Utrecht, The Netherlands .

To become more successful Green Career Consult on behalf of Certis Europe likes to get in contact with enthusiastic candidates for the job position:

Regulatory Affairs Specialist (32-40 hours/week)

coordinator, analytical, relationship, problem solver

Office location: Utrecht, The Netherlands

Your role

You are responsible for the registration process of the crop protection products in agri- and horticulture in The Netherlands. You work in close contact with your colleagues in the local and European registration department.

You coordinate local registration projects and support the central registration department by completing and submitting zonal dossiers in a way Dutch requirements will be secured.

Furthermore you advise and support some suppliers on regulatory affairs.

You secure the progress of your projects and act independently with decisiveness and ingenuity towards a desirable achievement.

You maintain intensive contact both oral and written with regulatory authorities and relevant experts and organisations related to regulatory affairs, e.g. Nefyto Internally you maintain close contacts with your local and European colleagues of development, supply chain and marketing & sales.

You are team member of the Dutch stakeholder affairs team. In this team you deliver registration expertise and act as contact person to Ctgb and other regulatory affairs authorities.

Your profile

- You have a Msc or Bsc degree with relevant specialization, e.g. in the area of biology, chemistry, (eco-)toxicology, pharmacy, plant science or environment);
- You have strong analytical, coordination, organizational and planning skills;
- You are a team player, problem solver and creative;
- You have excellent communication skills, both oral and written;
- Some years regulatory affairs expertise in crop protection;
- Excellent command of the English language and willing to learn Dutch.

Offer

Certis Europe offers you an independent and responsible position within a fast growing, international operating and ambitious organisation with enthusiastic colleagues. You get the opportunity to contribute to a further development of the crop protection portfolio for agri- and horticulture.

You will get excellent primary and secondary employment conditions.

Furthermore the position offers possibilities for your personal development and growth

Your office will be the brand new office in Utrecht, The Netherlands

Application

Are you the potential Regulatory Affairs Specialist? This is an exciting opportunity to join a successful business.
